**REPORT ON PLANTATION DRIVE ON THE OCCASION OF WORLD
ENVIRONMENT DAY 2026**

Date:05.06.2026

World Environment Day is celebrated every year on 5th June to raise awareness about environmental conservation and sustainable development. To mark the occasion of World Environment Day 2026, the students (II, IV & VI Semester) of the Department of Zoology organized a plantation programme with the objective of promoting environmental awareness and increasing green cover in the campus and surrounding areas. Total of 35 students participated for the above mentioned programme.

The programme commenced with a brief address by the Head of the Department, highlighting the significance of World Environment Day and the role of trees in sustaining life on Earth. Faculty members and students actively participated in the plantation drive.

Various saplings, including fruit-bearing, ornamental, and indigenous species, were planted at designated locations within the campus. Students worked in groups to prepare planting sites, plant saplings, and water them. Awareness messages regarding environmental conservation and sustainable practices were also shared among participants. The programme witnessed enthusiastic participation from Zoology students, faculty members, and supporting staff. Their collective efforts contributed to the successful implementation of the plantation drive.
